CURRICULUM VITAE

PERSONAL INFORMATION

Name: Ezekiel Njuguna Mburu
Date of Birth: 13th October 2003
Nationality: Kenyan
Identity Number: 41378397
Languages: English, Swahili
Religion: Christian
Gender: Male ,**Marital Status:** Single
Address: P.O. Box 222, Githunguri
Phone Number: +254 714 487 081
Email Address: njuguna.ezekiel.mburu@gmail.com

PROFESSIONAL PROFILE

Recent Bachelor of Business Information Technology student (awaiting graduation) with strong hands-on experience in full-stack software development. Skilled in building scalable web applications, integrating secure payment systems, and developing user-centered solutions.

Seeking internship or entry-level opportunities in software development, ICT, or tech-driven organizations where I can apply my technical expertise, grow professionally, and contribute to innovative projects.

EDUCATION BACKGROUND

September 2022 –April 2026: Murang'a University of Technology *Bachelor of Business Information Technology*

2018 – 2022: Meru School
Kenya Certificate of Secondary Education (KCSE)

2016 – 2017: Kagwe Township Primary School
Kenya Certificate of Primary Education (KCPE)

2009 – 2015: Evageor Academy

SKILLS

- **Technical Skills:**

  Programming & Frameworks: PHP, JavaScript, Python, React, Next.js, Node.js, Django, Vue

  Web Development: HTML, CSS, Responsive Design

  Databases: PostgreSQL, MongoDB, MySQL

Tools & Technologies: Git, Docker

Other Competencies: API Integration, Payment Gateway Integration (M-Pesa, Paystack, PayPal)

- **Soft Skills:**

Self-management and organization.
Problem-solving.
Innovation and adaptability.
Commercial awareness and customer service excellence.

WORK EXPERIENCE

Shamiri Fellow
Shamiri Institute (Februa y 2026 –March 2026)

- Facilitated evidence-based group sessions for mental health and academic support
- Guided students in growth mindset, resilience, and study strategies
- Tracked attendance and progress for program evaluation
- Delivered structured interventions with measurable outcomes

ICT Atachee
Murang'a County Government (May 2025 – August 2025)

- Developed an Equipment Booking System to streamline the reservation and usage of ICT resources by staff.
- Assisted the ICT department with routine technical support and system maintenance tasks.
- Supported users in troubleshooting hardware and software issues, ensuring minimal downtime.

Full stack Developer
InuaFund Crowd-Funding Platform (Nov 2024 – April 2025)

- Designed and developed the entire crowdfunding platform from scratch, including front-end and back-end systems.
- Integrated multiple payment gateways (e.g., M-Pesa, PayPal) to enable secure and flexible donations.
- Built responsive user interfaces and admin dashboards for efficient platform management.
- Ensured system security, scalability, and performance through optimized code and robust architecture.

Sales Assistant
Pamoja Electronics Shop (April 2022 – August 2022)

- Assisted customers with product selection and provided detailed information about electronic products.
- Managed inventory and ensured accurate stock levels.
- Processed sales transactions efficiently and maintained excellent customer service standards.

PROJECTS AND INITIATIVES

- **Crowd-Funding Platform – InuaFund**

Designed and developed a fully functional crowdfunding platform from scratch. Implemented both front-end and back-end systems, user authentication, campaign management, and integrated secure payment gateways including M-Pesa and Paystack.

- **E-commerce Platform Prototype**

Built a prototype for a second-hand goods e-commerce website with a focus on responsive design, user-friendly interfaces, and smooth navigation. Included product listings, filtering, and a shopping cart system.

- **Task Management App**

Developed a web-based task management application to help users organize, prioritize, and track their daily and project-based tasks. Features included deadline reminders, status tracking, and collaborative task sharing.

- **M-Pesa & Paystack Express Integration**

Successfully integrated M-Pesa Express (STK Push) into various platforms to enable real-time mobile payments with seamless user experience and transaction validation. Integrated Paystack API to support secure and reliable online transactions for web and mobile applications, enhancing payment flexibility for users.

- **University Robotics Lab**

Participated in the design and development of robotic prototypes and control systems under the university's robotics innovation hub. Focused on embedded systems, sensor integration, and automation concepts.
